Subject: Pollution Report For New Carlisle Drums Site
New Carlisle, Clark County, Ohio.

POLREP #: 5 (FINAL)

II. BACKGROUND:

Site No.: SM
Delivery Order No.: 5001-05-327
Response Authority: CERCLA
NPL Status: No
Start Date: July 19, 1993

III. RESPONSE INFORMATION:**A) Initial Situation:**

The New Carlisle Drums Site consists of two semi-trailers located at two different locations; one at Lower Valley Pike (Site# 1) and Site# 2 at Liberty Road, 25 Ft. away from a residential area in New Carlisle, Ohio. There are approximately 130 55-gallon drums, 1500 5-gallon or less containers, and paint cans containing flammable liquid, flammable solids, paint sludge, and corrosives.

B) Action Taken (September 29 - October 1, 1993):

According to the results of waste profiling samples, the U. S. EPA gained disposal acceptance from three RCRA-approved TSD facilities. A total of 63 fifty-five gallon drums and two 25-cubic yard roll-off containers were shipped off-site for disposal on September 29 - October 1, 1993 as the following:

- * A total of 63 fifty-five gallon drums containing paint sludges and flammable liquids (D001, D006 and D040) were shipped to Ecolotec (Republic) of Dayton, Ohio.
- * Two 25-cubic yard roll-off containers containing base/neutral

solids, RCRA-empty (crushed) drums, and, used PPE were disposed of at Envirosafe of Oregon, Ohio.

- * A total of 30 fifty-five gallon drums containing zinc cyanide (P121) and corrosive liquids (D002) were shipped to Cyanokem of Detroit, Michigan.
- * Nine fifty-five gallon drums containing neutral liquid (029L) were disposed of at Dynecol of Detroit, Michigan.
- * During the course of the removal, ERCS contractor collected ten liquid samples from ten drums containing lubricant oil found at the site. The results of these samples indicated non-detected levels of PCBs in all of the drums except for Drum #4 which contained 10 ppm of PCBs. Drum #4 was disposed of at Ecolotec (Republic) of Dayton, Ohio. The rest of drums were given to the property owner for recycling purposes.
- * All site activities specified in the Action Memorandum for the New Carlisle were completed on October 1, 1993.

C) Future Action:

- * No further on-site activities.
